

Greetings from the Vosburghs...

Midwest Church Extension

May 2012

Volume 9, Issue 2

New Missionary Couple!

It is always a thrilling time for Midwest Church Extension when we can announce an addition to the ministry family. Our pilot replant ministry located at Maroa, IL is Harvest Community Church. Late last year, MCE was put into a position where we needed to remove our worker from the project. Since that time, we have been asking for the Lord's provision of a new leader who would be able to help us fulfill the spiritual agenda that was started here back in 2006. The Lord has answered our prayers in a wonderful way.

Dick & Linda Fellars come to MCE with an invaluable level of experience and track record. They have been involved in two previous church planting ministries, and most recently have served on staff at Northland International University as an

instructor of several church ministry courses. With this kind of expertise, we have great expectations of what God will do now at Maroa.

Dick & Linda will be on site sometime in mid-June, and MCE has plans to begin immediate preparations for HCC to become a second training center for internships and residencies. Join us in praising the Lord for His marvelous answer to prayer!

Update on Billygraham Dammala...

Pastor Billy had a planned surgery on Tuesday May 1 that replaced the bone section originally removed for his brain surgery on the day he suffered the aneurysm. Praise the Lord, Billy was able to return to the rehabilitation hospital in Wheaton over the weekend, so he will soon be getting back to his rehabilitation routine. There is still much progress needed for him to make, but we rejoice that each step of the recovery is able to be made. Please continue to pray for his health.

The funds sent to MCE on behalf of the Dammala family have reached to just over \$15,000. Thanks to everyone for giving to this need. The fund remains open as their financial burden continues while Billy remains in the hospital.

Henry's Calendar

•••
